

## Mission Scientist report for Wednesday 15 May

Submitted by rutledge on Wed, 05/15/2013 - 12:58

Date:

Wednesday, May 15, 2013 - 12:45

Discussion:

All is well in IFLOODS. Some very light echoes to the south and southwest of Npol. Rutledge and Fuchs from CSU are at Npol and have been capably trained by Piotr on running Npol. Forecast calls for suppressed conditions today as a ridge is in place. Forecasts are more promising for the days ahead, especially the Sunday-Monday timeframe.

All instruments platforms should make sure they can make an all out effort for the expected big event this weekend. The forecasters will be watching this situation closely.
