

Plan of the Day for Wednesday, 22 May 2013

Submitted by rutledge on Wed, 05/22/2013 - 09:09

Date:

Wednesday, May 22, 2013 - 09:00

Discussion:

Scattered showers anticipated for today associated with movement of upper level low from west to east across the area. Instrument status is good. Rutledge will be replaced by Carey as Mission Scientist starting on Thursday.
