

Plan of the Day for Thursday, 6 June 2013

Submitted by tjlang on Thu, 06/06/2013 - 09:33

Date:

Thursday, June 6, 2013 - 09:30

Discussion:

Isolated showers are expected today. NPOL and D3R are operational. NPOL may test scan timing using alternate-transmit RHs if conditions get quiet. XPOL personnel will work on restoring communications to XPOL-2. Other XPOLs are green. Disdrometer/gauge personnel will work on restoring communications to the portions of the network that lost them yesterday. Otherwise, those instruments are green as well.
